

BATTERY "ZEW" FOR PILOT SURVIVAL RADIO

(NSN 6140430013817)

Technical data:

Nominal voltage:	10,8 V
Discharge end-point voltage:	7,5 V (-20°C)
Operating temperature range:	from -20°C to +50°C
Resistance to temperature variations:	from -55°C to +75°C
Operating time at 100mA load:	24 h
Operating time at cycling load: (100mA for 1 min/ 20mA for 3 min)	60 h (20°C) 30 h (-20°C)
Weight:	max. 420 g
Dimensions (in mm) - length x width x height:	146 x 80 x 24
Vibrations and impact resistance:	Yes

Application:

- Power source for survival radios
